NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 30 JUNE 2014

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

Turnover represents revenue due from the normal activities of the company to the extent that, the seller obtains a right to consideration in exchange for its performance of those activities, exclusive of Value Added Tax.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Fixtures, fittings & equipment	15% reducing balance
--------------------------------	----------------------

1.5 Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.6 Revenue recognition

The revenue recognised is measured by reference to the amounts likely to be chargeable to clients, less a suitable allowance to recognise the uncertainties remaining in the completion of the obligations. Contingent income is recognised only when once the contingent element is assured.

The practice has adopted Urgent Issues Task Force Abstract 40, Revenue Recognition and Service Contracts.

1.7 Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

1.8 Deferred taxation

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when timing differences reverse, based on current tax rates and laws.
