Notes to the Abbreviated Accounts for the period ended 31 October 2013**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

The turnover shown in the profit and loss account represents amounts invoiced during the year.

In respect of long-term contracts and contracts for on-going services, turnover represents the value of work done in the year, including estimates of amounts not invoiced. Turnover in respect of long-term contracts and contracts for on-going services is recognised by reference to the stage of completion.

Goodwill

Positive purchased goodwill arising on acquisitions is capitalised, classified as an asset on the Balance Sheet and amortised over its useful economic life. Where a reliable estimate of the useful life of goodwill or intangible assets cannot be made, the life is presumed not to exceed five years. Useful economic lives are reviewed at the end of each reporting period and revised if necessary, subject to the constraint that the revised life shall not exceed 20 years from the date of acquisition. The carrying amount at the date of revision is depreciated over the revised estimate of remaining useful economic life.
